APPLIED SCIENCE

Engineering

CELEBRATE RESEARCH WEEK

You are cordially invited to attend *From Toy Trains to Airplanes: Are we serious about safety?* a public lecture by Professor Anoush Poursartip from the Materials Engineering Department at the University of British Columbia.

From the onset of the industrial revolution until a few decades ago, safety was a topic of great importance. But in recent years, we have become complacent—that is until a tragedy occurs. Explore issues of public safety with Materials Engineering Professor Anoush Poursartip.

Date: Wednesday, March 10
Time: 6:30-8pm
Location: Room C300, UBC Robson Square, 800 Robson Street, Vancouver
RSVP: Please use online form www.apsc.ubc.ca/celebrateresearchsvp

Please feel free to extend this invitation to others who may be interested in attending.

UBC Celebrate Research Week (March 5th to March 13th, 2010) showcases a week of diverse events highlighting areas of research and cutting-edge work that UBC's faculties, departments, schools and partner institutions have to offer. These events include discussion forums, lectures, seminars, open houses, events for youth and kids, and symposia on topical and timely issues from every discipline imaginable.

There are many more engaging lectures and events during Celebrate Research Week; we invite you to visit our website to find out more: www.apsc.ubc.ca/celebrateresearch.

UBC Celebrate Research Week is March 5-13th.
